Good afternoon Mr. Harms,

Codevintec is under the D.L. 77/21 because it employs 17 people. The documents have to be delivered to end user within 6 months from the end of the service. We are working on the report, and we are sure we will be able to send them to you before that time.

Please advise if you have other deadlines or needs.

Thank you!

Chiara

**Subject:** Re: GSSI T360 order

Dear Chiara, Monica, Nicola,

As you can see in the attachment, we need a gender report and related documents, which is required by law. Could you kindly provide the documents to us?

Best regards,

Jan

Good morning,

It seems that we are all set to proceed, but we would need someone from Codevintec to upload the offer to the ubuy platform. It will then be possible for the GSSI administration to take the next step.

Subject GSSI T360 order

Good morning,

I saw that Nicola will be absent until June 9. We need someone from Codevintec to register on the GSSI ubuy system:

<https://gssi.ubuy.cineca.it/PortaleAppalti/it/homepage.wp>

Is there someone who could do this? It is about the order for the 6x T360 GSN sensors.

Jan
